**3) PROFESSIONAL EXPERIENCE**  
Biostatistician (Medical Statistician)

I have more than twenty years' working experience as a Lecturer in the School of Public Health, University of Nairobi. In addition to teaching and mentoring medical students in biostatistics, research methods, data analysis and report writing, I have exceptional qualities in team leadership as manifested in the repeated re-election to the post of Director of the University of Nairobi Clinical Epidemiology Unit, a fraternity of about 30 Professors and Lecturers of the University of Nairobi spearheading the improvement of quality of health research. I have also successfully led Research, Capacity building, Monitoring and Evaluation teams in numerous assignments both in Kenya and in the East and Central African Region especially in the areas of HIV/AIDS and Injury prevention/Safety promotion as evident in the consultancy assignments listed below.

My experience in the design/implementation of community surveys and other types of epidemiological studies dates back to 1982. I am also proficient as well as a trainer in computer applications including word processing, spreadsheet/database management software, statistical

and epidemiologic software (SPSS, EPI-Info) and other ICT applications including the internet.

#### **4. WORKING EXPERIENCE RECORD**
