**Previous Work
Experience**

Senior Registrar/Assistant Clinical Services Coordinator,
Department of Paediatrics,
The Aga Khan University Hospital, Nairobi
January 2003 to 29th February 2008.

A busy department in one of the finest health institutes in and around East and Central Africa. The responsibilities of a registrar are many including running the various clinics: neonatal, well baby, chest, gastroenterology, neurology, and being responsible for the care of admitted patients, in the wards, ICU and the nursery. Weekly clinical meetings. Teaching PALS/EPLS.

My additional responsibility as the Senior Registrar from August 2006 was to make sure that the paediatric casualty ran smoothly (including making the duty rota), in addition to overseeing the smooth operation of the paediatric ward and the specialty clinics. In September 2007, I was promoted to Assistant Clinical Services Provider whose responsibility was to ensure the smooth running of the day to day activities of the Department of Paediatrics in general, involving more of administrative and public relations.

A whole range of experience and a lot of knowledge gathered.

Part time Paediatrician,
AAR Clinic, Sarit Centre,
Nairobi.

June 2006 to June 2008

Seeing paediatric patients at the AAR clinic in Sarit Centre, two days a week.

Senior Resident
Department of Paediatrics/PICU/NICU
Bhatia General Hospital,
Mumbai, India

10th February 2000 to 31st July 2000.

Registrar post in PICU (paediatric intensive care unit), NICU (neonate intensive care unit) and the general ward.

Resident Medical Officer
S. L. Raheja Hospital (All India Institute of Diabetes)
Mumbai, India

25th September 1995 to 26th July 1996.

Practical Skills	<p>To name a few: Securing Intra-Venous Access (cannulation) Umbilical Vein Catheterisation Arterial blood gases Electrocardiography Resuscitation and management as per PALS/EPLS Protocols</p>
Volunteer & Community Activities	<p>Active participation in many medical camps</p>
Organisational Experience	<p>Organising medical camps Organising and scheduling the duty roster of medical doctors</p>
Conferences & Workshops Attended	<p>International Scientific Conference, World Allergy Organization, Hyderabad, India, 6th to 9th December 2012 Respiratory Symposium, KPA Annual Scientific Conference, Mombasa, 18th April 2012 Neonatal Resuscitation Program (NRP), Paediatric Universal Life-Saving Effort (PULSE), Nairobi Hospital, 13th October 2011 Allergy Symposium, Allergy Society of Kenya, Nairobi, 10th September 2011 Conference on Paediatric Nephrology, Nairobi, March 2010 Conference on Paediatric Intensive Care, Mumbai, India, 28th-30th November 2008 Paediatric Refresher Course, University of Cape Town, S.A., 13th-15th February 2008 Conference on Paediatric Infectious Diseases, Bangalore, India, 13th-14th October 2007 Neurodevelopment Seminar, AMREF, Nairobi, 9th-13th July 2007 Neonatal Resuscitation Provider Course, Nairobi, 5th December 2006 Case Management Training for the Implementation of the 2006 National Guidelines for Diagnosis, Treatment and Prevention of Malaria, Nairobi, 8th-10th August 2006 Course on Comprehensive Paediatric HIV Management, Nairobi, 12th-16th July 2006 Bronchial Asthma workshop, Nairobi, July 2006</p>

	<p>European Society for Paediatric Endocrinology course in Paediatric Endocrinology, Nairobi, 16-20 May 2006 Lactation Management 'ToT' course, Nairobi, 2005 PALS Instructor's course, Nairobi, 2005 Symposium on Child Neurology & Developmental Paediatrics in Africa, Nbi, April 2001 Attended Paediatric Specialist clinics in Endocrine, Nephrology, Cardiology and Dermatology, Wadia Children's Hospital, Mumbai, 2000 Attending the Kenya Paediatric Association CME meetings.</p>
<p>Personal</p>	<p>I am the eldest in a family of three. (Born and brought up in India and migrated to Kenya after my marriage to a Kenyan of Indian origin.) When in India, travelling and sight seeing was fun and I did manage to travel to almost all the major places. Now, my activities are limited because of the job and two growing children (12 year daughter and 8 year son), who take precedence over all else! Our trips are now restricted to either day or up to 1-2 nights stay out. My hobbies apart from travelling are reading and cooking. I neither smoke nor take alcohol. I have not had any formal computer lessons but I know my way around in Microsoft office applications. I am a 'non-practising' Sikh by religion.</p>
<p>Career Intentions</p>	<p>To become an exceptionally good 'general' Paediatrician. Eventually do either Neonatology or Neurology as a sub-specialty.</p>
